PROFESSIONAL SUMMARY

Operations and Supply Chain leader with a proven track record of scaling logistics and quality assurance processes across the MENA region (UAE, KSA, EGY, TR, ZA). I believe great operations are about people as much as processes. Throughout my career, most notably during my tenure at Amazon, where I consistently earned the highest annual performance ratings and multiple innovation awards, I have focused on giving time back to my teams. By designing AI-assisted automations and applying Lean Kaizen methodologies (ALFA Yellow Belt), I've helped save thousands of manual hours annually. Currently pursuing an MBA in Supply Chain Management, I am passionate about driving operational excellence, mentoring high-performing teams, and building resilient, tech-enabled supply chains.

CORE COMPETENCIES

Supply Chain & Logistics Operations | Team Leadership & Mentorship | Lean Kaizen & Six Sigma (DMAIC) | Value Stream Mapping (VSM) & FMEA | Strategic Reporting (WBR/MBR/QBR) | AI-Assisted Automation & VBA Macros | SQL & Data Analytics (Hubble) | Quality Assurance & Auditing | Root Cause Analysis (RCA)

PROFESSIONAL EXPERIENCE

Transportation Specialist

Managing Operations across UAE, KSA, EGY, TR, and ZA | Jan 2024 – Present

- Lead daily transportation operations and fleet performance across 5 key MENA regions, ensuring uninterrupted operational coverage in a 24/7 environment.
- Team Leadership & Mentorship: Trained 20+ team members on end-to-end logistics processes, serving as the Subject Matter Expert (SME) and providing continuous mentorship to ensure high performance and operational consistency.
- Empowered 40+ users across 3 regions by developing an AI-assisted browser automation tool for disruption alerts, cutting transit delay response time by 71% (7 min to 2 min) and saving 130+ hours annually.
- Engineered an AI-assisted VBA macro that automatically fetches live trip data to identify unaddressed docking, departure, and arrival delays across a multi-country network, reducing processing time by 92% and saving 420 hours annually.
- Spearheaded the deployment of an AI-assisted VBA reporting tool across UAE, KSA, and Egypt for D-1 Dark Store fleet performance analysis, reducing report preparation time by 86% and saving 547 hours annually.
- Built a browser extension delivering real-time break-end alerts to 1,000+ NOC staff, eliminating systemic break adherence violations and ensuring continuous, stress-free operational coverage.
- Automated multiple daily performance and EOD reports (AU ARVO, SGPO, JNT, AU Easy Ship), reducing daily processing times by up to 92% and giving back 300+ aggregate hours annually to the team.

Translation Specialist & Manual Tester (Alexa Skills) | Amazon India Private Limited

Bangalore, India | Dec 2020 – Oct 2023

- Leadership & Performance: Honored with the highest performance rating in annual reviews for all consecutive years. Awarded the "Innovator" and "Extra Mile" awards by ADECT, alongside multiple Spot Awards and Weekly Star Performer recognitions.
- Lean Process Optimization: Earned ALFA Lean Yellow & White Belt certifications. Applied Value Stream Mapping (VSM), FMEA, and DMAIC methodologies to partner with BI teams, automating ASP WBR dashboards and ideating a simplification strategy projected to save 1,600 manual hours annually.
- Strategic Reporting & Automation: Steered WBR, MPR, and QBR data extraction for leadership. Authored complex SQL queries in Hubble to resolve time zone discrepancies, standardizing data extraction for SJO and BLR teams.

- **Quality Assurance Leadership:** Established ownership of Arabic locale QA, re-auditing 82 managed and unmanaged skills, and flagging 21 critical Sev1/Sev2 issues. Led a 4-phase UAT for Arabic RDA templates, flagging 116 defects and collaborating with US-based tech teams to eliminate manual work.
- **Team Mentorship:** Acted as Subject Matter Expert (SME) and RCA POC. Mentored and trained associates on CPDR, REBC, and Support Engineering processes. Stepped in as REBC POC with minimal training, successfully closing ~1,500 REBC and ~200 MAU skills.
- **Project Management:** Managed high-aging AES backlog cases (10+ BDs), led deep dives on lower SMAT ratings, and created comprehensive Visio workflow diagrams to simplify case management.

Translator & Content Specialist | Pentacodes IT Solutions UAE

May 2020 – Oct 2020

- Translated social media ad content between Arabic and English, ensuring cultural relevance and messaging tone for regional campaigns.
- Collaborated with marketing and creative teams for campaign alignment, reviewing and proofreading content for accuracy under tight deadlines.

Exam Assistant | Coordination of Islamic Colleges (CIC)

Malappuram, Kerala | Jun 2018 – Jun 2019

- Administered exam preparations and coordinated the moderation of exam papers by external examiners, upholding assessment integrity.
- Provided administrative support for module registration, Course Committee meetings, and Graduation processes.

EDUCATION

Master of Business Administration (MBA) in Operations Management (Special focus: Supply Chain Management)

Jamia Hamdard University, New Delhi | Expected 2026

Master of Arts in English Language and Literature

Annamalai University, Tamil Nadu | 2024

Master of Arts in Arabic Language and Literature

The English and Foreign Languages University, Telangana | 2019

Bachelor of Arts in English Language and Literature
